# ABOUT US

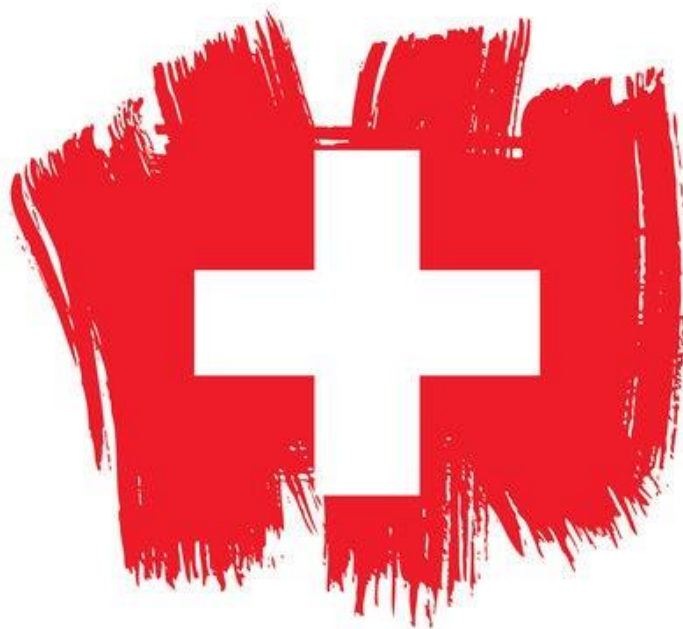

## ORLEE

was born in 2017, with a single goal, that of specializing in the production of Stencils in static modeling. Today, after 4 years of activity, Orlee is able to offer its customers more than 100 products (... not just stencils), listen to your wishes, offer you a quality product, this is our strength. We also work for other companies in the production of SCREEN-PRINTED DECALS (minimum 100 pcs). Orlee is synonymous with quality, we want to give you the best, at the price it deserves. All this is not only the result of our efforts but also of all the friends with whom we have collaborated and collaborated for years.

To you my friends, my sincere thanks and if I forgot someone I apologize ...

Product: High Quality Masking Sheets (Green)

Number stencil: X2

Use: airbrush or brush

Reusable: NO

Translucent green adhesive masking, opaque surface, thickness 0.080 mm.

APA (MADE IN ITALY) professional masking sheet for airbrush and brush use, can be used with all types of solvent-based paint and on any plastic surface. The product is sold with 2 sheets with a sheet size of 190 x 260mm allowing you to trace and cut designs of any size. This masking material is designed to be used with all types of paint for clean, adhesive-free definition, plus a sharp blade cuts through easily.

Who is APA Spa?

APA is an Italian company since 1978, leader in the production of vinyl films for automotive use, it is a professional product 100% made in Italy.

Code 000147

Product: High Quality Masking Sheets (Green)  
 Number stencil: X2  
 Use: airbrush or brush  
 Reusable: NO

Translucent green adhesive masking, opaque surface, thickness 80 micron.  
 APA (MADE IN ITALY) professional masking sheet for airbrush and brush use, can be used with all types of solvent-based paint and on any plastic surface. The product is sold with 2 sheets with a sheet size of 190 x 260mm allowing you to trace and cut designs of any size. This masking material is designed to be used with all types of paint for clean, adhesive-free definition, plus a sharp blade cuts through easily.

What is the difference between green Masking Sheets and gray Masking Sheets ?

The green masking sheets are slightly thicker than the gray masking sheets, they have a higher adhesive strength, ideal for standard cuts (circles, lines, etc.). The gray Masking sheets are less thick than the green ones and have a lower adhesive force. They were developed for all those masking in the modeling field, where greater precision is required (letters, numbers, etc.).

# STENCIL PLASTIC

Code 000139

Product: Realistic flames Stencil  
 Scale: 1:24 and 1:18  
 Number stencil: 1 pcs  
 Use: airbrush or brush  
 Reusable: YES

Traslucent opaque gray stencil, 200 micron (0,20 mm thick)

The "realistic flames" stencil is an absolute novelty in static modeling, this product will allow you to create real flames in 1:24 and 1:18 scale. The product is sold with a reusable plastic stencil. The stencil can be used with both acrylic paints and enamel paints. The final result depends on the skill of the modeller.

Code 000087

Product: Stencil Anelli di fumo "Regia Aeronautica"

Scale: 1:32

Number stencil: 1 pcs

Use: airbrush or brush

Reusable: YES

PVC Stencil matt traslucet, 200 microns (0.20 mm thick)

The Regia Aeronautica issued a precise directive, which defined all the elements of the main modifications to be applied to existing camouflages. This legislation, in addition to containing the technical specifications of the paints and fillers to be used, also contained the color samples of the colours, which were then sent to the paint factories and aeronautical companies, so that they could be immediately used for the newly produced aircraft (which were defined starting from the months of August/September 1941) and for those subject to review at the plants.

# MASKING TAPE

Material: Masking tape 3 mm, 4 mm, 5 mm, 6 mm, 9 mm, 12 mm and 15 mm

High quality washi tape for masking, the tape protects the paint during painting or to fix and keep various pieces of plastic in scale model. The product does not release sticky residues on the surface. This is not a reusable product, we recommend it to people over the age of 14.

Use: airbrush or brush

Reusable: NO

# HIGH FLEXIBLE MASKING TAPE

High Flexible Masking tape 1 mm, 2 mm and 3 mm

High performance Yellow Washi mask  
Measure 1, 2 o 3 mm x 10 m

High quality washi tape for masking, the tape protects the paint during painting or to fix and keep various pieces of plastic in scale model. The product does not release sticky residues on the surface. This is not a reusable product, we recommend it to people over the age of 14.

Use: airbrush or brush

Reusable: NO

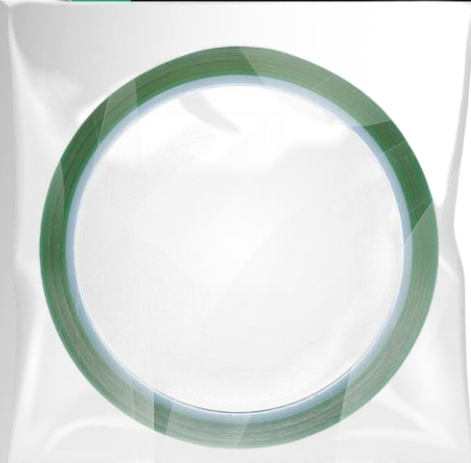

# HIGH FLEXIBLE MASKING VINYL

## MASKING TAPE 3 MM, 5 MM

Use: airbrush or brush  
Reusable: NO

3 mm and 5 mm adhesive masking tape, PET material, 0.06 thickness, maximum length 33 meters, translucent green color. The product is suitable for all plastics and resins, it does not release sticky residues on the surface. This is not a reusable product, we recommend it for people over 14 years of age.

# HIGH QUALITY MASKING STRIPS

High Quality Masking Strips 0,4, 0,5, 0,8, 1 and 1,5 mm

Number Masking Sheet: X1 pcs

High Quality Masking strips (MADE IN ITALY) for use with airbrush and brush, can be used with all types of solvent-based paint and on any plastic surface. The product is sold with 1 sheet, with a sheet size of 180 x 240 mm, one sheet contains 54 stripes of 0.5 mm (total length 13 m). This material has been designed to mask, and to be used with all types of paint for a clean definition and without leaving traces of adhesive. Once the product has been used, it cannot be reused, it must be disposed of according to the directives of the country where the product was sold.

# orlee Brush

Quality materials, produced exclusively in Germany to offer the best in your Hobby these are the 4 Brush that orgy is able to offer

- Kolinsky BRUSH n°0
- Novacrylic FLAT Brush n°6
- Wheathering Brush
- Pelo di Bue Brush n°4

All our brushes are developed for specific uses in the modeling scale field, what are you waiting for !The surface on which the product is applied must be free of dust, any type of grease and other impurities that could affect the final result.

In order to ensure compatibility of the product, it is recommended to perform application tests. It is also advisable to respect the machining information produced by ORLEE.

all Orlee products are subject to a careful quality control during each production and guarantee the commercial quality and the absence of manufacturing defects. The information published on Orlee products is based on the results of the research conducted and is believed to be reliable by the company, but this information is not a guarantee. Due to the variety of use of Orlee products and the continuous development of new applications, the purchaser scrupulously assesses the suitability and performance of the purchased product for the purpose for which it intends to use it, fully assuming the risks associated with such use. All specifications are subject to change without notice.

## Let's Find Out!!!

Weathering Sponge Latex

Number pcs : 1

Use: The Latex sponges are ideal for giving a "faded" appearance to colored surfaces through the fading technique.

How to use:

1. tampon the sponge in the color / pigment and then fade it with light movements.
2. fade everything with a clean sponge to eliminate any unwanted marks

Care:

wash regularly with neutral soap, rinse and squeeze out excess water

# CERAMIC BLADE CRAFT

Material: Ceramic Blade Craft

The Blade ceramic craft by Orlee is a professional product ideal for hobbyists (modellers) or for any category of work. It is the ideal product for those who want to get the most out of their work. You will always get a perfect cut, with a unique resistance of its kind, the product contains an ergonomic handle and 2 ceramic blades with a 45 ° cutting angle

Code DB00322

Decals: 1 pcs, format A5 (148 X 210 mm) no die-cut  
 Scale: 1:35  
 Decals printed in the highest quality

Banksy is a British artist, considered one of the greatest exponents of street art. His works, eccentric and incisive, allow the viewer to reflect on the system and society in which we live. The fact is that still today no one knows his true identity, even if there are various hypotheses about it. These decals have been made possible by the many photographers who have documented Banksy's works in various parts of the world. In addition to expressing their enthusiasm for this absolute genius of street art, their photos have told a precious testimony of his paintings directly on the streets, often before they were canceled, defaced or removed in any way.

Photo by Graziano Ghetti

Realized with  
Weathering sponge latex and other colors
